

# WE ARE SUSTAINABLE

With more than 60 years of expertise, Le Bélier has been developing industrial and technical solutions for Automotive and Aeronautic market that enabled the Group to become a major actor for aluminium lightweighting solutions.

Our **Sustainability Ambition** is constructed around pillars such as ethic and social concerns, responsible sourcing, climate and environment protection, safety and occupational health for our employees.

Le Bélier is a customer-focused company and its strategy is to be a **green company**; this will enable Le Bélier to be considered as a preferable supplier for lightweighting solutions.

Lowering **Green House gases** emissions drives our strategic axis **Be Green** to contribute to **tackle climate change**.

Other axes of our **Sustainability Ambition** are based on The United Nations Sustainable Development Goals (SDGs).

All our policies, code of conduct and values support Le Bélier **Sustainability Ambition**.

Be All Responsible  
Be Safety-Oriented  
Be Environment Committed  
Be Customer-Focused  
Be Cyber-Protected
